## KELLEY AND DAVIDSON CONVICTED OF MURDER

### But Jury Recommends Them to Mercy of the Court, Which Means Life Imprisonment.

PALATKA, Fla., June 26.—(Special)—Following is the verdict in the Kelley-Davidson murder case:

"We, the jury, find defendants, James M. Kelley and D. M. Davidson, guilty of murder in the first degree, and recommend them to the mercy of the court. Thomas Murray, foreman."

The above verdict was rendered a few minutes before 11 o'clock this morning in the case of Kelley and Davidson, charged with the murder of Night Watchman W. C. Sellars of the Atlantic Coast Line at High Springs three years ago. The jury worked on the case until after 2 o'clock this morning, and retired worn out. They reported that a verdict had been reached at 10 o'clock, but the court sent them back to the room on account of the verdict not being properly made out, as no degree was mentioned.

The court room was crowded early by persons anxious to hear the verdict. The prisoners took the verdict calmly, Davidson's daughter being by his side when it was announced.

Court adjourned after receiving the verdict until 2 o'clock today, when motion will be made for a new trial. This motion will of course be denied, when an appeal will be taken to the Supreme Court.

**Life Imprisonment at Hard Labor.**

PALATKA, June 26.—7:30 p. m.—(Special)—Court reconvened at 5 o'clock this afternoon, when motion for a new trial in the Kelley and Davidson case was denied. A writ of error was filed and an appeal will be taken to the Supreme Court. The prisoners were sentenced to life imprisonment at hard labor.

When the men were asked what they had to say why sentence should not be passed upon them, Kelley said: "I accept the verdict of the jury, but so far as D. M. Davidson is concerned, he is as innocent of any connection with this crime as any man within the hearing of my voice."

The prisoners accepted the sentence as calmly as they received the verdict.

## HOWARD REARRESTED ON ROBBERY CHARGE

Justice Howard, the negro who was arrested in connection with the first report of the larceny of money from the Express Company's safe on the T. & J. Railway on Thursday and acquitted for lack of evidence, was re-arrested Saturday shortly after his preliminary hearing upon a charge of haven stolen $341.65 from the safe, instead of the amount at first reported.

Messenger Crouch made the still further discovery of missing money sometime during Saturday morning, and came here and had the warrant issued for him shortly following the first trial.

There has been only $2 of the missing money discovered, and it is very probable that the negro has it buried along the railway somewhere, or hid in the coach that is used on this run.

Conductor Crouch has been on this run for many years and was for a long while the messenger on the run. He has recently, however, held down the position of conductor in connection with the messenger's job, and this is his first experience in missing funds.

He believes that he will eventually locate some of the missing money, and will use every effort to have the negro divulge the secret as to where he has placed the amount, all of which was taken from the safe on the T. & J. Railway at the time.

## MRS. GOULD WINS HER SUIT FOR SEPARATION

### Judge Vindicates Her of Improper Conduct---Gets Only $36,000 a Year Alimony.

NEW YORK, June 26.—After a trial which lasted nearly three weeks, Katherine Clemmons Gould obtained a legal separation from her husband, Howard Gould, third son of the late Jay Gould, by a decision of Justice Dowling in the Supreme Court yesterday.

With the exception of alimony, her victory was complete, but in this phase of the case the court decided that $36,000 a year was sufficient, although in her suit Mrs. Gould asked for $250,000. She has been receiving $25,000 a year from Mr. Gould, so that the amount fixed by the court is but a slight increase compared with the amount sued for.

It was in her vindication of charges of intoxication and her alleged relations with Dustin Farnum, the actor, that Mrs. Gould scored most strongly, for notwithstanding the long array of witnesses for Mr. Gould, who gave such testimony as to make Mrs. Gould appear at times as defendant rather than plaintiff, the court held that the alleged "intoxication" might have been due to excitement. As to Dustin Farnum, it was held that her association with him came after Mr. and Mrs. Gould separated and that the husband apparently made no objection.

**Shearn Gets $17,000.**

Immediately after the decision Delancy Nicoll, for Mr. Gould, asked for a sixty-day stay of judgment, and Clarence J. Shearn, for the plaintiff, was on his feet to object. He asked for an immediate judgment. Justice Dowling compromised by making the stay thirty days. Mr. Shearn asked for an extra allowance for counsel fees and the court gave him $2,000. This, together with the $10,000 allowed recently and the original allowance of $5,000, will bring his fees to $17,000, with an additional sum of $3,900 for expenses.

Friends of Mrs. Gould began to crowd about her as soon as the decision was announced. She had been somewhat lonely during the trial, but after the verdict she was kept busy receiving congratulations. As the decision was read she kept her head cast down and seemed plainly disappointed by the allowance. As soon as the case was closed, however, she shook hands warmly with Mr. Shearn and thanked him for his conduct of her case. Then she beamed upon her friends and even smiled upon the downcast trio of lawyers who had fought for her husband's interest.

**Mrs. Gould Beaming.**

Mr. Shearn, jubilant at the decision, was eager to discuss it.

"Judge Dowling's decision," he said, "is a sweeping and complete vindication of Mrs. Gould. That has been the object of all this bitter litigation. Mrs. Gould could have compromised for a fortune at any time, but would never consider for a moment anything but the opportunity of clearing her name in an open, public trial."

He added that either party in the suit could still bring action for absolute divorce, but that Mrs. Gould could not base such an action on charges involved in the suit just decided. Mrs. Gould's dowry rights in Howard Gould's real estate amounts to $3,000,000, he said, and was unaffected by the separation. His client, he continued, was going to Virginia for a long rest.

Mrs. Gould issued the following statement:

"I am the happiest woman living tonight because I have been so completely vindicated before the entire world of all these horrible charges. Not one little pang shot through my heart at the smallness of the allowance—only supreme joy and the deepest gratitude. I send a thousand loving thanks to all who have helped me."

## Oak Halls vs. Brick City At Ball Park Tomorrow

Henry Davis' fast bunch of ball players will be strengthened the coming week by the addition of "Big Boy" McLeod, who will likely hold the second sack. Roy Taylor has already arrived to be associated with them for the season, which gives Manager Davis one of the very best of clubs to be found in the State.

He is not expecting to meet any real fast company for the next two weeks, and states that his first trip from home, which will commence on Monday week, will be about an even break, but after that, when he starts on his northern trip, he will take everything in sight, for by that time the men will have played together sufficiently to be able to cope with the fastest team on his schedule.

Ocala comes here Monday and it is rumored that they have secured a number of professional players to use in the game against the Oak Halls. Ocala and Gainesville have always been bitter rivals on the ball diamond, and both clubs have spared no expense to get the best material available. The Brick City boys have a strong following and the people there believe in supporting a team, and a good crowd will be up Monday to "pull" for their favorites. The local fans should be prepared to meet them and show that they have the proper spirit and enthusiasm necessary to hold the good reputation Gainesville has as a baseball town. Secure ribbons at Miller's and be out "good and strong" Monday.

Wednesday and Thursday Hastings will be the attraction here and two good games are assured. Those who have seen the Potatoes perform claim they are a fast set of players, most of whom are Northern men who understand the ins and outs of the game. Undoubtedly they will give the local boys a run for their money and it would be unwise to state that the Oak Halls will be able to "peal" them.

On Saturday afternoon Palatka, our old-time rivals, will be here and try to duplicate the trick they turned on Manager Davis' men in the first game last year. The Gem City club has been strengthened considerably since that time and when the Oak Halls face them they will have to hustle to hold their own.

Let everyone prepare to attend the game Monday and show the Ocala fans that Gainesville has not only a first-class club but also an exceptionally large number of "rooters."

Under the schedule now running over the Coast Line the out-of-town "sports" have things to suit them and can bring up as many as they like on either the morning or afternoon train, and then make it back home on the night train after the game.

The game will start Monday promptly at 3:30, and one of the prettiest and best games of the season is expected. Harris will probably do the twirling for Ocala, while the "veteran" "Pop" Watson will be on the rubber for the home team.

## THE SUMMER NORMAL.

**Large Number of Teachers Have Already Arrived Here.**

The Teachers' Summer Training School which opens here tomorrow morning promises to be well attended. A large number have already arrived to be present at the opening, which will be held in the auditorium of the High School building. The opening exercises will begin promptly at 8:30 a. m., and all interested should be present.

Prof. T. F. McBeath of Mississippi has declined the position tendered him in this school, but his brother, T. J. McBeath, will be a member of the faculty. Prof. Huffaker, principal of the Summerlin Institute at Bartow, will also be a member of the faculty. He will take the place originally assigned to Prof. R. M. Evans of the Osceola High School, who has been transferred to the Tallahassee school.

Major W. L. Floyd will have charge as principal until the arrival of Dr. Murphree, and will assist anyone in securing board, or making the proper location, if they will apply to him.

It is noticeable that a large number of ladies are arriving to take advantage of this school, and they will all be warmly welcomed to the city as in the past.

**Building Progressing Rapidly.**

The new laundry building being erected by Maj. W. R. Thomas for the Gainesville Steam Laundry is progressing favorably and about four feet of the walls have been laid. It was at first intended to make a concrete building, but after making the foundation of concrete it was decided to build a brick structure.

## Micanopy To Have Much Better Railroad Service

The citizens of Micanopy, or the committee appointed by them, have been successful in their efforts to have trains Nos 9 and 10 run via that place regularly.

The evidence and petitions prepared by the committee while in this city last Thursday afternoon had the effect of quick work, for a telegram was received here Saturday by Superintendent McArthur informing him to run this train via that point.

This change will prove highly satisfactory to a large number of people who visit Gainesville, and it will give the citizens of that fast growing little city the best railroad facilities they have enjoyed since the days of the Florida Southern.

Under the new change train No. 138 will not make the trip to Micanopy on its southbound journey, but will run via Micanopy and Tacoma on its way north, which will be known as No. 138, giving them almost a double daily service right to their own door.

In speaking with the reporter one of the members of the committee stated that they were sure they would receive some consideration at the hands of the Railroad Commission, but had respected the company's interests and had asked them for the change before being compelled to resort to this method of procedure.

Drs. H. L. Montgomery, J. D. Watkins and Mr. C. E. Melton were the committee who successfully engineered the new change, and commencing on next Monday the business man's special will run in and out of Micanopy on north and south bound trips, giving them a service that any place could well feel proud of.

**Pumping Water for Cattle.**

J. H. Holly of Arredondo was a visitor here yesterday. He states that he has never seen it so dry in his section as at the prezent time, and that all of the stockmen of that section are having to supply water for their stock. Quite a number of the people have irrigating plants and are compelled to get their supply of water from deep wells and are using gasoline engines for the pumping of water. All of the ponds are drying up and it is dangerous for stock to attempt to get water from them.

## Sea Island Cotton Was Dull and Featureless

SAVANNAH, Ga., June 26.—The market for Sea Island cotton was quiet to dull during the past week, with only a light demand and small offerings. Quotations remain without change.

Crop accounts continue favorable. The weather has been seasonably warm, with about sufficient rain on the average, although some localities could stand some more, while others have had a little too much. On the whole the Georgia crop gives excellent promise so far. Accounts from Florida are more mixed, but are fairly favorable in the main.

Sales for the week here 84 bales.

The following prices were based on factors' quotations and are revised weekly on Fridays:

# THE CONTEST DRAWING IN ALL SECTIONS

### MERCHANTS BEING BENEFITED BY NEW CUSTOMERS.

**Gainesville Section Again Coming to the Front With Two More Candidates Close to Miss Goode.**

The Co-Operative contest is proving very profitable to all of the merchants and business houses that have entered the combine and they are daily adding new customers to their lists. It is expected that after Monday, when the new train service is inaugurated from the western part of the county will reap a rich harvest from that section.

There is no change in the positions since the last count, except in the Western section, but some extra heavy votes have been cast during the past two days, and everything points to some very heavy voting before the next count, for it is rumored that some of the candidates have secured extra large votes and are holding them until next week.

If you have not already sent for The Sun list in your respective locality, do so and get busy, for it will assist you greatly in determining who are already subscribers and enable you to approach the proper ones for their subscriptions; besides, it will show you who is in arrears for the paper.

Following is the result of the canvass:

### At the Electric.

Manager Wellington has secured as his vaudeville feature for the coming week Rudolph Denicke, a high-class musical comedian, who will be remembered as being a feature with Coburn's Minstrels when they played this city last year. From the various reports from other managers in Florida concerning Mr. Denicke's act, Manager Wellington promises something great for the patrons of the ever-popular Electric.

The moving pictures will be up to their usual high standard.

To excite interest there will be a voting contest for the most popular young lady in town. Fifteen votes will be given away with each ticket purchased at the box office. Returns will be shown on the screen nightly, showing the exact standing of the contestants. The purchaser of a ticket may name any young lady he or she wishes. The prize will be a handsome umbrella, which may be seen in L. C. Smith's show case.

Prices as usual.

### Poor Milk

Is often thought to be responsible for an infant's loss in weight or general poor health. The cause usually is that the child has worms. They get the nourishment of the food and the baby starves, actually starves. White's Cream Vermifuge expels the worms and nourishes the child, sure and safe. Price 25 cents. Sold by W. M. Johnson.

### He Had Brass Knucks.

John Johnson, who was arrested with Justice Howard upon the charge of larceny, were both released from custody Saturday by Justice J. A. Carlisle on this charge. John Johnson, the negro who was guilty of having the knucks with him at the time of his arrest, was fined $200 and costs or four months in the county gang. He will have to take the latter course. Both are negroes.

### HALL—GROFF.

**Popular Young People of Newberry United in Wedlock.**

NEWBERRY, June 26.—A beautiful home wedding was solemnized here Wednesday at high noon, when Mr. A. J. Hall, a very highly respected young man of Richmond, Va., and Miss Antha Groff, the beautiful and accomplished daughter of Mrs. E. A. Groff of Newberry, were united in holy matrimony.

The ceremony was performed by the Rev. J. A. Yeates of High Springs.

The parlor was decorated with ferns and flowers, in the center of the room being an immense wedding bell of white daisies and ribbon, under which the bridal couple stood. At the appointed hour, to the strains of Mendelssohn's Wedding March, exquisitely rendered by Miss Sistrunk, the bridal party entered the parlor. The groomsman and brides-maid entered the room from the right and took their places, followed by the bride and groom.

The bride wore a beautiful princess dress of white messeline satin, with an overdress of white silk brussells net beautifully trimmed in lace. She carried a bouquet of flowers. Her going-away dress was a tan-colored prunella coat suit with a pretty embroidered white waist with hat, veil and gloves to match.

After receiving the congratulations of friends and relatives a sumptuous dinner was served, after which Mr. and Mrs. Hall left for Washington, D. C. They will visit friends and relatives at Richmond, Va., and in North Carolina, and then return home to Newberry.

They were the recipients of a number of beautiful presents. The best wishes of a host of friends follow this popular young couple.

Mr. and Mrs. R. B. Groff of Jacksonville and Mrs. G. M. Sistrunk, daughter and sons, of Starke, were among the out-of-town guests.

# VICTIMS OF OBESITY

### Cure Yourself at Home in Comfort.

As a bodily affliction Obesity often seems to be inexplicable, so rapid is the increase of weight and bulk, even in cases where the victims are studiously temperate in eating, etc. There is evidently a predisposition that way, and neglect only tends to confirm it. The remedies tried may have grievously disappointed you.

Here is one that will not do so, and you may get the ingredients at your druggist's and mix them yourself without trouble: Ask for ½ oz. Marmola, ½ oz. Fluid Extract Cascara Aromatic and 3½ oz. Pepperment Water. Shake together in a good-sized clean bottle. Simply take this mixture after each meal and at bedtime, one teaspoonful to the dose, and give yourself no further trouble; the superfluous fat will subside with wonderful rapidity.

Dieting need not worry you in the least, nor is violent exercising at all desirable. Wasting methods of weight reduction are not natural. Try the pleasant treatment above prescribed for a week or so, and you will be fit, strong and free from all bodily discomfort, besides having regained correct weight and a shapely figure.

### BURKHIM'S CONTEST.

**Capt. Alvarez Still Leads for Handsome Piano Here.**

The handsome piano to be given away by L. J. Burkhim to the most popular contestant is being fought for hard by friends of Capt. Alvarez, one of the conductors on the Seaboard who runs from Waldo to this city, and judging from the way in which his friends are sticking to him he will prove successful unless the other contestants get a move on themselves.

The High School holds second place, but Capt. Alvarez is steadily gaining at each count.

Following was the result of the count last night:

### DIES FROM INJURIES.

**Kicked by a Horse on Last Monday, June 21st.**

Harmon Hines, the youngest son of Mr. and Mrs. Willey Hines of Willeford, was kicked and seriously injured on last Monday by a horse, and died from the effects of the same on Thursday.

He was a very popular young lad and the community and friends generally deeply sympathize with the family in their sad hour of grief. The remains were laid to rest at Mountenen Cemetery, a large number of friends and relatives following the remains to their last resting place.

Governor Hughes will bear the expense of his trip to the Seattle Exposition, he having vetoed an appropriation for that purpose made by the Legislature. The propriety of his refusal to allow the State to pay for his trip will probably be sharply questioned by some of our politicians.

Happily for mankind not all the researches of science or the inventiveness of man are devoted to seeking life destroying agencies. Effectively and without the noise of trumpets earnest devoted men are combating disease, and in some instances, as in striving for a remedy for the dreaded sleeping sickness, sacrificing their lives in the cause of humanity.

## TO YOUNG LADIES.

"Never put your arm through the handle of a jug." is a piece of advice given by an exchange to the young ladies. Most of them ought to know what it means without further explanation.

A woman is never so foolish as when she hopes to reform a man after marriage. "He loves me," she trustingly says, and because her own love is pure, she expects the pure article in return. Poor girl, you do not know the witchery of the jug, nor the strong bands which bind the soul of the man to whom your happiness is entrusted. True enough he is good-hearted and kind except when in liquor, but as his slavery increases his kindness decreases. While seeking for someone to shield him in his helplessness he may indeed flatter you that you, and you only, can redeem him. Many an error it hides, many a heartache it cures. But the lack of love soon follows protracted indulgence in folly. Young ladies, never put your arm through the handle of a jug.

Wonder if our readers will recognize to whom The Inverness Chronicle refers in the following: "The State of Florida has witnessed the spectacle of a former Governor getting down to the level of Pat Murphy and other notorious Jacksonville lobbyists and be it said to the discredit of the members of the late lamented Legislature he evidently had them on the hip, figuratively speaking. That former Governor has lost his dignity, if he ever had any. He wants to be U. S. Senator. His influence was great in the Legislature, but he will not have that body alone to handle in his future political work. Naturally the people detest a professional lobbyist, and their votes next year will prove this. He dropped his candy in the last campaign and will not pick it up in the next."

The individualism which formerly prevailed has well nigh disappeared from our political and social life, and in its place we now have collectivism. Just as the older order had both its weak and strong points so will the same be found in the new. Perhaps the worst feature of the old individualism was its tendency to selfishness; the individual thought mainly of himself and not of his obligations to others. The strong point about collectivism is its trend towards the realization of brotherhood, and yet that may easily become its weak point if it checks the incentive to individual effort.

If Canada is getting alarmed at the presence of the Nashville and other American cruisers on the great lakes she is worrying herself for nothing. As for the cruisers themselves, their armament is so light that in actual warfare they would count for little. But war between Canada and this country is practically unthinkable. If annexation comes at any time it will come peacefully, and if Canada wishes to continue as at present she will have nothing but the friendship and goodwill of the United States.

No one ought to be more gratified than union labor men over the conviction of dishonest and unscrupulous leaders who sell them out for the sake of private gain. Fortunately they have but few leaders of that stamp, but one such can often do lasting mischief and bring discredit upon the cause of labor, unless he and his actions are swiftly repudiated.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for testimonials. Address,

## A DANGEROUS GIFT.

Beauty is a dangerous gift. It is even so. Like wealth, says The Orlando Sentinel, it has ruined its thousands. Thousands of the most beautiful women are destitute of common sense humanity. No gift from heaven is so fatal as beauty. In about nine cases out of ten it makes a woman silly, senseless, thoughtless, giddy, vain, proud, frivolous, selfish, low and mean. We have seen more girls spoiled by beauty than by any other one thing. "She is beautiful, and she knows it," is as much as to say that she is spoiled.

A beautiful girl is very likely to believe she was made to be looked at—and she sets herself up for a show at every window in-door, on every corner of the streets, in every company at which opportunity offers for an exhibition of herself. And believing and acting thus, she soon becomes good for nothing else, and when she comes to be a middle-aged woman she is that weakest, most sickening of all human things—a faded beauty.

Persons who have read the new primary election law say that if its provisions are literally followed candidates for office will be prohibited from contributing to their pastor's salary during a campaign. It will be interesting to note if the law causes an increase in the number of candidates.—Starke Telegraph.

Greater men than Frederick de Martens have passed into history in the past few years, but few accomplished more with less acclaim than the Russian statesman who aided in sealing the peace pact between his country and Japan.

# NEW RURAL ROUTES FOR BELL ON FIRST

EXAMINATIONS HELD IN THIS CITY SATURDAY MORNING.

Starling and Martin Have Received Appointments and New Service to Commence at Once.

The town of Bell, one of the hustling and industrious sections of Western Alachua, will have two new rural routes leading from that point on and after July 1st, by order of the Postoffice Department at Washington.

An examination for this purpose was held in Gainesville on Saturday, when H. Starling and Albert Martin, two of the citizens of that section, were here and took the examination for the positions of carriers.

This is the first movement for this new service west of Newberry, and it will very likely spread to other portions after it has been inaugurated at that place.

Micanopy will have another new route established there next week, which also commences on July 1st, and this will run in a southerly direction, returning through the Flemington section, giving the citizens along this route a new and satisfactory service, for they will be greatly benefited in receiving their mail and save a number of trips to the city. R. E. Arnow has been appointed as carrier for this route.

### Men Past Fifty in Danger.

Men past middle life have found comfort and relief in Foley's Kidney Remedy, especially for enlarged prostate gland, which is very common among elderly men. L. E. Morris, Dexter, Ky., writes: "Up to a year ago my father suffered from kidney and bladder trouble and several physicians pronounced it enlargement of the prostate gland and advised an operation. On account of his age we were afraid he could not stand it and I recommended Foley's Kidney Remedy, and the first bottle relieved him, and after taking the second bottle he was no longer troubled with this complaint." ## IS IMPROVING RAPIDLY.

Fletcher DeBose Is Now Practically Out of Danger.

Fletcher DeBose, the negro man who was so dangerously shot on last Saturday week, is reported to be out of danger at the present time and very strong hopes are now entertained for his early recovery.

It will be remembered that the ball entered his stomach and pierced his bowels in three different places, and a difficult operation was required to sew up the places, but owing to his remarkable strength he has withstood the strain and is resting well.

### Broke Arm by Fall.

Julia, the little three-year-old daughter of Mr. and Mrs. Edward Kennard of South Gainesville, had the misfortune Saturday to fall from a buggy and break her arm. The little one was playing in the vehicle, which was stationed under the shed, and in some manner became overbalanced and fell, with the above result. A physician was summoned and she is now resting as well as could be expected under the circumstances.

"It cured me," or "It saved the life of my child," are the expressions you hear every day about Chamberlain's Colic, Cholera and Diarrhoea Remedy. This is true the world over where this valuable remedy has been introduced. No other medicine in use for diarrhoea or bowel complaints has received such general approval. The secret of the success of Chamberlain's Colic, Cholera and Diarrhoea Remedy is that it cures. Sold by all druggists.

### Released by Mayor Davis.

Rebecca Reger, Ella McDay, Lucretia McDay and Mary McNish, a party of negroes arrested in Hunt's quarters for fighting, were up before Mayor Davis on Saturday on a charge of fighting, but as the evidence was conflicting he ordered them released.

### Stomach Troubles.

Many remarkable cures of stomach troubles have been effected by Chamberlain's Stomach and Liver Tablets. One man who had spent over two thousand dollars for medicine and treatment was cured by a few boxes of these tablets. Price, 25 cents. Samples free at all drug stores.

### Suspension Bridges.

There is no doubt that the first idea of a suspension bridge was suggested to primitive man by the interlacing of tree branches and parasitical plants across rivers. Probably monkeys used them before men did. In very mountainous countries, such as Tibet and Peru, they have apparently been used since the dawn of history, possibly earlier.

### An English View.

The slang of New York has its origin, of course, in the climate. It is the climate that has produced the terrible doctrine and practice of "hustle," and for people living in a wild chaos of competition, always in a blinding hurry and in the midst of a deafening din, language has to be pitched up high to cope with the circumstances. There is no time to pause nor any place in which an ordinary quiet phrase would be able to reach your ear. Language to produce any effect at all must be as quick and as violent as all else. A phrase that has not the properties of dynamite goes unheeded.—Max Beerbohm in London Saturday Gazette.

## HIDDEN DANGERS

**Nature Gives Timely Warning That No Gainesville Citizen Can Afford to Ignore.**

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here is proof in the statement of a nearby resident:

Mrs. Elizabeth Moore, Madison avenue, Starke, Fla., says: "For some time I suffered from dull, nagging backaches and distressing pains through my loins. I could not rest well and arose in the morning feeling tired and worn out. My kidneys were sluggish and the secretions very unnatural. I at length procured Doan's Kidney Pills and they gave me the desired relief promptly. I have since been free from backaches and pains through my loins and my kidneys are normal. I am feeling better generally and give Doan's Kidney Pills the credit."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

## BONNIE MELROSE.

MELROSE, June 26.—A union picnic will be held by the Sunday schools of Melrose, Waldo and Orange Heights at Earleton on Friday, July 2nd. Everybody cordially invited to come.

The steamer Santa Fe has been away since Thursday, being at work spraying the water hyacinths with the Government spray used on the St. Johns river.

Dr. W. H. Lee has received his diploma from the State Dental Board and has opened an office in Lake Butler.

Mrs. J. Moore of Jacksonville is the guest of her daughter, Mrs. L. M. Baldwin. Other visitors in town during the week were Rev. C. B Hedrick, Starke; E. P. Thagard, Ocala, and J. C. Adkins, Gainesville.

Quite a party came over from Earleton and Waldo on Mr. Boring's launch on Friday night, enjoying the beautiful moon light on the lake.

**A Nabob.**

"Rich as a nabob" is an expression not infrequently heard, but why a "nabob" should thus be associated with wealth and who he was precisely is not so generally known. Under the great moguls the provinces of India were administered by deputies known by the designation of "nawab," who commonly amassed much money and lived in great splendor. The office and the title continued under British rule in the orient, but gradually the word became corrupted into "nabob" and was applied generally to all natives who had grown rich. More latterly it was bestowed—often in a derisive sense—upon Europeans who, having made large fortunes in India, returned home and spent their money in a luxurious and ostentatious way.—London Scraps.

**Iceberg Designs.**

All the architecture of the world is represented in nature's iceberg designs. Sometimes a little berg will have the appearance of an Arab's white tent as it rides on a desert looking sea; another, its sharp outlines softened in the vaporous atmosphere, will appear like a domed mosque in green marble. A cluster of Chinese pagodas comes drifting slowly down the current, followed by a stately Gothic cathedral, early style. Then comes a coliseum, and beyond a huge man-of-war floats down the current, its stern submerged, with foam grandly breaking over it, the stern seventy-five feet aloft.

**Then and Now.**

The difference between the relations of parents to their children now and in the days before us is well illustrated by the story of the old general who was talking to a young lady whom he had taken in to supper. Before them on a plate was a chicken. "After all, general," said the young lady, "there is nothing in the world like the liver wing of a chicken."

"Well," he replied, "do you know I never tasted one, for when I was young my parents ate it, and now my children do!"—Congregationalist.

**Sore Nipples.**

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by all druggists.

**Straightening the Back.**

It is the custom in certain parts of Scotland among the woman laborers in the field, when their backs begin to ache from bending low while working with short handled hoes, to lie down, their faces upon the ground, and allow others to step upon the lower part of their backs with one foot several times. This operation is known as "straightening the back."—Chicago News.

# Woman's Beauty

## Depends upon her hair

MI-LADY'S TOILET—HERPICIDE MAKES IT COMPLETE.

No matter how handsome the eyes, how clear the complexion, how perfect the lines of the face or how elegantly attired, no woman can be considered really beautiful unless she has good hair—hair that is her own.

Weak, thin, scraggy hair will mar the prettiest face ever sat upon feminine shoulders.

## FOREIGN POLICE.

**Dress of the Patrolmen of London, Paris and Berlin.**

London patrolmen carry no clubs. Attached to the middle of the belt behind is a dark lantern. The cuffs of their coats have vertical stripes, blue and white, signifying rank and distinguished service. During the frequent showers and rains they wear little waterproof capes. Their silent regulation of street traffic by hand signal is a realization of perfection.

In Paris the ordinary patrolmen wear blue caps and coats and in summer white duck trousers. They carry short swords, rather as an emblem of authority, but in extreme danger use the flat side as a club. In a downpour of rain the Paris policeman hangs his cap on a hook in the back side of his belt and draws over his head the hood of a short blue cape of heavy cloth. This hooded cape is called a capuchin and in its longer form, reaching to the knees, is used by civilians as well in cold or rainy weather. Accordingly at such times the streets of Paris seem to be alive with cowled monks. The London plan for controlling vehicles is used on the Paris boulevards. The policemen detailed for such duty wear white gloves and signal with white clubs.

German policemen wear helmets and have a distinctly martial air.—Travel Magazine.

## FOLLOWED HER LEAD.

**The Chinese Cook Knew Which Eggs Should Be Discarded.**

"Chinese need to be taught to be more self reliant," said the woman who employs a Chinese cook. "Yesterday I ordered my cook to make a pudding for dinner, stopping a minute to see if he followed my instructions, for I had taught him to make this particular pudding. He had seen me smell the eggs before putting them into a bowl, and he began by putting the first egg to his nose. He seemed on the right road, so I left the kitchen for a minute.

"Returning, I discovered that he had used five eggs instead of three, as I had taught him. Taking him to task for not following my instructions, he answered: 'Yes; three here (pointing to the bowl), two here (indicating where he had thrown the others). Same as you.'

"It dawned on me that when I had taught him to make the pudding I had found the second and third eggs that I had broken to be bad and had thrown both away. He had simply done what he had seen me do—after smelling the second and third egg he had thrown them away."—New York Sun.

# THE BEST REMEDY

## For Women—Lydia E. Pinkham's Vegetable Compound

Noah, Ky. — "I was passing through the Change of Life and suffered from headaches, nervous prostration, and hemorrhages.

"Lydia E. Pinkham's Vegetable Compound made me well and strong, so that I can do all my housework, and attend to the store and post-office, and I feel much younger than I really am.

"Lydia E. Pinkham's Vegetable Compound is the most successful remedy for all kinds of female troubles, and I feel that I can never praise it enough." — MRS. LIZZIE HOLLAND, Noah, Ky.

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease and pain.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ills—inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

**If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.**

## THE NEW ORE.

**One of Andrew Carnegie's Early Iron Experiences.**

Andrew Carnegie once stated that a short time after the starting of his first plant in Pittsburg he had an odd experience with iron ore.

"I was offered some ore that sampled about the usual grade, so far as I was able to judge from appearances, at a reduced price," he said. "I bought several thousand tons—a big order for those days. The second day after we commenced to run it the foreman came to the office and told me the new ore was of no account, that it did not flow and that the furnaces were so choked they would have to be dumped unless some remedy was found. Those fires were built to last two years, and to dump them at this time would mean so heavy a loss as to practically put me out of business. A young chemist had called on me a few weeks before, and, while I had not paid much attention to him, I had kept his card. It occurred to me that he might possibly be of some help, though I confess I did not then see what chemistry had to do with the iron business. But I sent for him, and he came at once. First he examined the new ore and then the old that we had been running without difficulty, and finally he looked at the furnaces. To avoid delay he made a little test of the two ores right there. I had told him when he arrived that I felt sure the new ore was worthless and admitted my mistake in buying it. Of course I did this as I did not want him to think I was ignorant of the business. You can imagine my surprise, then, when at the conclusion of his test he quietly informed us that the new ore was so good we did not know how to run it. The fact was that the new ore contained 20 per cent more iron than the old, and all that it was necessary to do was to add a proportionate increase of flux to bring about reduction."—American Industries.

**Heat Conductors.**

Some substances conduct heat more freely than others, silver among the metals being the best conductor, and as a unit of measurement is taken at 1,000. Compared with silver as a conductor, gold is 981, copper 845, zinc 641, tin 422, steel 397 and wrought iron 436. Glass, wood, gases, liquids and resinous substances are bad conductors. Water is such a poor conductor that if heat is applied to the top it will boil at the top, while the bottom will remain cold.

**Reformed Spelling.**

A commercial traveler tells us of an interesting notice exhibited in the window of a small shop in the west of England. It ran:

OME GRONE UNE 6 A POTT.

To upholders of the new orthography this should be interesting. It refers to home grown honey and its price.—London News.

### RESOLUTIONS

Fixing the Cost of the Paving of East Main Street, between Liberty and Boundary Street in the City of Gainesville.

Whereas, under and by virtue of an Ordinance entitled, "An Ordinance to Provide for the Paving of East Main Street from Liberty Street thence North to Boundary Street and for the Cost of Such Work and Issuance of Special Assessment City Certificates to Enable said City to Pay the Cost of Such Work Pending the Collection of Special Assessments and Taxes," approved February 15th, A. D. 1907, it is provided and required that the City Council of said city, as soon as practicable after the completion of the paving of said street, shall meet and by resolutions fix the special assessment per front foot for the paving of said street upon the abutting property in the proportion of two-thirds of the cost thereof, as named in Section 2 of said ordinance, said special assessment not to exceed two-thirds of the actual cost of the paving of said street, or two-thirds of the estimated special assessment per front foot for such work as provided in said ordinance, and

Whereas, the City Council did by resolution dated February 23rd, 1909, provide and direct that the Board of Public Works should have so much of said East Main street, north of Liberty street to and including Mechanic street, paved with vitrified brick in lieu of crushed flint rock, and that in the paving of the same the cost of the paving in front of the property of Mrs. O. A. Porter and J. M. Graham should be paid one-third by the city and two-thirds by the property owners, and no part of such cost should be assessed against the property north of the point where such paving is done, and

Whereas, the Board of Public Works of said city have reported that such work, aforesaid, has been completed and the same has been accepted by the city, Therefore be it

Resolved, by the City Council of the City of Gainesville, that two-thirds of the actual cost of the paving of said East Main street, from and exclusive of the crossing of Mechanic street north to Boundary street, including curbs and gutters, is the sum of $3.412 per front foot, and that the sum of $1.706 per front foot is fixed as the special assessment per front foot for cost of the paving of said street upon the property fronting and abutting upon each side of said street, and located between Mechanic street and Boundary street.

That two-thirds of the actual cost of the paving of said East Main street from Liberty street north, to and excluding the crossing thereof with Mechanic street, including curbs, is the sum of $7.808 per front foot, and that the sum of $3.904 per front foot is fixed as the special assessment per front foot for the cost of the paving of said street, upon the property fronting and abutting upon each side of said street, and located between Liberty street and Mechanic street, Be it further

Resolved, that this resolution shall be published one time in a newspaper published in said city.

Passed by the City Council of the City of Gainesville, Florida, this 25th day of June, A. D. 1909.

G. K. BROOME,
President City Council.

Attest: J. M. DELL, City Clerk.

# HUMORS IN THE BLOOD

When the blood is pure and healthy the skin will be soft, smooth and free from all eruptions or disease, but when the circulation becomes infected with any unhealthy humor the effect is shown by eruptions, pimples, boils, or some more definitely marked skin disorder, such as Eczema, Acne, Tetter, Psoriasis, Salt Rheum, etc.

Humors get into the blood, usually because of an inactive or sluggish condition of those members whose duty it is to collect and carry off the waste matter and refuse of the system. This unhealthy matter is left to sour and ferment and be absorbed into the blood, and soon the circulation becomes filled with an acrid, irritating humor.

The blood then, instead of performing its natural duty of nourishing the skin, regulating its temperature and preserving its uniform softness, pliability and healthfulness, irritates and diseases the delicate tissues and fibers around the pores and glands and produces some of the various forms of skin eruption or disease.

The cause of all skin affections can be traced to some kind of humor in the blood. Healthy cuticles are only possible where the circulation is pure; and therefore the cure of any skin disease can only come from a thorough cleansing of this vital fluid. Salves, washes, lotions, etc., cannot cure. True such treatment relieves some of the itching and discomfort, helps to reduce inflammation, and aids in keeping the affected parts clean, but it does not reach the blood, where the real cause is located, and at best can be only palliative and soothing.

**For six years I was severely troubled with Eczema, located principally on the shin bones, caused by a humor in the blood. The trouble would appear in the form of small yellow blisters, characterized by itching, etc. I tried sarsaparillas, so-called blood purifiers, salves, ointments, lotions and treatment under a local physician, but nothing did me any good. Becoming discouraged I left off all this treatment, and seeing S. S. S. advertised one day I decided to try it, and after taking it a short while the humor was driven from my blood and I was completely and permanently cured. Some seven months have elapsed since I was cured and have had no indication of a return of the disease. G. C. RECK. 404 Freedom St., Alliance, O.**

S. S. S. cures skin diseases of every character and kind because it purifies and cleanses the blood. It goes down into the circulation and removes the humors that are causing the trouble, builds up the weak, acrid blood, and completely cures Eczema, Acne, Tetter, Salt Rheum, pimples, boils, and all other skin diseases and affections. S. S. S. is made entirely of roots and herbs, a safe vegetable remedy.

S.S.S.

PURELY VEGETABLE

When S. S. S. has driven the humors from the blood, and cooled and purified the acid-heated circulation, every symptom passes away, the skin is again nourished with rich, healthful blood, and comfort is given to disease-tortured skins.

S. S. S. cures Poison Oak, Poison Ivy, Nettle Rash, and all other troubles due to a humor-laden blood. Book on Skin Diseases and any medical advice free to all who write. S. S. S. is for sale at all drug stores.

**WILSON DRY GOODS COMPANY** Successors to R. WILSON

S. A. Thomas of Rochelle was in town Saturday and made The Sun office an agreeable call.

J. E. Wainwright will leave today for Starke, where he goes to visit his sister, Mrs. Langford, who is reported quite ill in that city.

Gus Waits, road overseer of the Hawthorn district, is among the visitors to the city. He is accompanied by his brother, Crom Waits.

Misses Maude and May Gardner of Cedar Key were in the city yesterday. While here they were the guests of the family of Dr. C. L. Carter.

We are still selling $5 and $6 umbrellas and parasols at $2.98. They are genuine bargain values. It will pay you to purchase now. L. C. Smith.

Note the change in the advertisement of A. M. Cushman, the insurance agent. His suggestion of Fourth of July festivities is very timely and points to the fact that all should have insurance.

Tim Williams, who was a member of the Oak Hall baseball club last season, arrived in the city yesterday en route to his home at Florella after a short visit among his friends here. He held the position of third baseman for the Oak Halls.

T. E. McDonald of Rocky Point was here yesterday. He states that notwithstanding the very dry and hot weather the crops are looking well and the truckers are shipping a great many egg plants. He says that water is scarcer now than he has ever known it before.

The G. W. Hyde Company announce the last chance to buy goods at the great cut price sale which was inaugurated by them a few days since. The ten-day limit will have expired on next Tuesday night, and if you have failed to visit them you should take a look at what they are offering.

For your summer vacation, recreation, health or pleasure, visit Worthington Springs. The medicinal qualities of these well-known sulphur springs are not surpassed by any springs in Florida, as attested by leading physicians of Gainesville. Improvements recently completed. A new swiming pool with comfortable bath houses surrounding it. Octagon-shaped dancing pavilion, music room, billiard and pool rooms and refreshment stand in connection. Accommodations at Hotel Worthington are first-class—only $7 per week. Mrs. H. B. Lamb, Proprietress.
